

Bo Fu

Undergraduate

Profile

An Undergraduate Student major in Computer science with Open Mind to all the new things.

Interests

- **Research.** TCS, AI Security
Unlimited, as long as about **Discovering World's Origin**.
- **Life.** Cooking & Eating, Sports, Guitar, Music, Talk
Unlimited, as long as about **Feeling Life Itself**.
- **Others.** Many things to say, but this margin is too small to contain them.

Education

present
↑
Sep. 2021

BSc. in Computer Science
Kuang Yaming Honors School, Nanjing University

Projects

2021Fall

Bomber Man Project
A step-by-step(from **CLI** to **GUI**) **CPP** project about the construction of a popular game *BomberMan*.

2022Fall

Graph Library Project
A lab that create a **CPP** shared library implementing graph **Data Structure** and **Algorithms**.

2023Spring
↑
2022Fall

NJU Project-N Experiments

- Using **CPL** to implement a simplified but fully functional RISC-V32 emulator **NEMU** (NJU EMUlator).
- A small **Operating System** is also built.

2022Fall

RISC-V Computer System Experiments
Using **System Verilog** to write a single-cycle CPU with some common peripherals, successfully run on the **FPGA**.

Nov. 2023
↑
Oct. 2022

Brain-Computer Interaction Project
Guided by **Guihuan Feng @ NJU**.
Using **ML** method to implement a basic Brain-Computer Interaction based on the **Emotiv EPOC-X** equipment.

Work Experience

present
↑
Sep. 2023

Teaching Assistant
2022 & 2023 Problem Solving@NJU

- Theoretical Teaching Assistant.
 - ★ Maintaining the website used for homework submit.
 - ★ Providing feedback and guidance. (lectures included)
 - ★ Grading theory assignments and exams.

Abilities

- General **Problem Solving**
- Leadership & Teamwork
- Effective Communication
- Open mind & Adaptability
- Basic Math Ability
- **Architecture of Computer Systems**
- **LaTeX, Typst and Markdown**
- **Linux OS, Vim, Git and Sh etc.**
- **C/C++, Java, C# and Python**
- **Matlab, Origin (Pro) etc.**
- **Cooking, Driving etc.**
